

### ■ Using the wireless charger

- 1 Press the power supply switch of the wireless charger.

Pressing the switch again turns the wireless charger off.

When turned on, the operation indicator light (green) comes on.

When the engine switch is turned off, the on/off state of the wireless charger will be memorized.

If the power supply switch is pressed 3 times while charging is being performed, the rapid charging function will turn on. To turn the wireless charger off, press the power supply switch when a portable device is not being charged.

- 2 Place a portable device on the charging tray.

Place the portable device so that it is centered in the charging area with its charging surface facing the portable charger. Depending on the portable device, its charging coil may not be in the center of the device. In this case, place the portable device so that its charging coil is centered in the charging area.

While charging, the operation indicator light (orange) will be illuminated.

If charging does not begin, move the portable device as close to the center of the charging area as possible.

When charging is complete, the operation indicator light (green) will illuminate.
