

5-2. Steps to take in an emergency

If the shift lever cannot be shifted from P

If the shift lever cannot be shifted with your foot on the brake pedal, there may be a problem with the shift lock system (a system to prevent accidental operation of the shift lever). Have the vehicle inspected by your Toyota dealer immediately.

The following steps may be used as an emergency measure to ensure that the shift lever can be shifted:

STEP 1 Set the parking brake.

STEP 2 Vehicles without a smart key system: Turn the engine switch to the “ACC” position.

Vehicles with a smart key system: Turn the “ENGINE START STOP” switch to ACCESSORY mode.

STEP 3 Depress the brake pedal.

Pry the cover up with a flat-head screwdriver or equivalent.

Press the shift lock override button.

The shift lever can be shifted while the button is pressed.
