

■ Windshield wiper linked headlight illumination

When driving during daytime with the headlight switch turned to **AUTO**, if the windshield wipers are used, the headlights will turn on automatically after several seconds to help enhance the visibility of your vehicle.

■ Battery-saving function

In the following conditions, the remaining lights will go off automatically after 20 minutes in order to prevent the vehicle battery from being discharged:

- The headlights and/or tail lights are on.
- Vehicles without a smart key system:
The engine switch is in the "ACC" or "LOCK" position.
- Vehicles with a smart key system:
The engine switch is in ACCESSORY mode or turned off.

This function will be canceled in any of the following situations:

- Vehicles without a smart key system:
When the engine switch is turned to the "ON" position.
- Vehicles with a smart key system:
When the engine switch is turned to IGNITION ON mode.
- When the light switch is operated
- When a door or the trunk is opened or closed

■ Customization

Some functions can be customized. (→P. 606)

NOTICE

■ To prevent battery discharge

Do not leave the lights on longer than necessary when the engine is not running.
