

2-3. Operating the lights and wipers

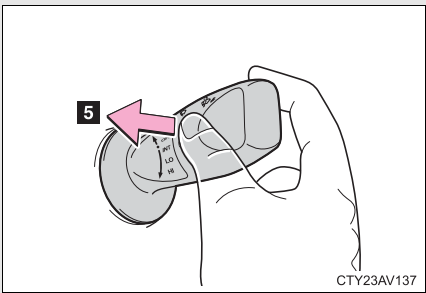

Windshield wipers and washer

The wiper operation is selected by moving the lever as follows.

U.S.A. (type A)

- 1 Intermittent windshield wiper operation
- 2 Low speed windshield wiper operation
- 3 High speed windshield wiper operation
- 4 Temporary operation

- 5 Washer/wiper dual operation

The wipers will automatically operate a couple of times after the washer squirts.
