

## Battery

Check the battery as follows:

Make sure that the battery terminals are not corroded and that there are no loose connections, cracks, or loose clamps.

**1** Terminals

**2** Hold-down clamp

### ■ Before recharging

When recharging, the battery produces hydrogen gas which is flammable and explosive. Therefore, observe the following before recharging:

- If recharging with the battery installed on the vehicle, be sure to disconnect the ground cable.
- Make sure the power switch on the charger is off when connecting and disconnecting the charger cables to the battery.
