

If the vehicle battery is discharged

The following procedures may be used to start the engine if the vehicle's battery is discharged.

You can also call your Toyota dealer or a qualified repair shop.

If you have a set of jumper (or booster) cables and a second vehicle with a 12-volt battery, you can jump start your vehicle by following the steps below.

- 1 Confirm that the electronic key (vehicles with a smart key system) or key (vehicles without a smart key system) is being carried.

When connecting the jumper (or booster) cables, depending on the situation, the alarm may activate and doors locked. (→P. 84)

- 2 Open the hood. (→P. 457)

- 3 Vehicles with 3.5 L V6 (2GR-FKS) engine: Remove the engine cover.

Make sure to pull the engine cover straight up when removing it.
