| Erasing the entire HomeLink® memory (all three codes) |
|---|

Press and hold the 2 outside buttons for 10 seconds until the HomeLink® indicator light changes from continuously lit orange to rapidly flashing green.

If you sell your vehicle, be sure to erase the programs stored in the HomeLink® memory.

CTH64BT011

■**Codes stored in the HomeLink® memory**

● The registered codes are not erased even if the battery cable is disconnected.

● If learning failed when registering a different code to a HomeLink® button that already has a code registered to it, the already registered code will not be erased.

■**Before programming**

● Install a new battery in the transmitter.

● The battery side of the transmitter must be pointed away from the HomeLink®.

⚠ WARNING

■**When programming a garage door or other remote control device**

The garage door or other device may operate, so ensure people and objects are out of danger to prevent potential harm.

■**Conforming to federal safety standards**

Do not use the HomeLink® compatible transceiver with any garage door opener or device that lacks safety stop and reverse features as required by federal safety standards. This includes any garage door that cannot detect an interfering object. A door or device without these features increases the risk of death or serious injury.

■**When operating or programming HomeLink®**

Never allow a child to operate or play with the HomeLink® buttons.
