■ 🚗 Vehicle settings

Press and hold 🆗 to change the settings of the following items:

Item	Settings	Details
TPWS (Tire pressure warning system) (→P. 474)		
Set pressure (tire pressure warning system initialization)		Select to initialize the tire pressure warning system. To perform initialization, press and hold the 🆗 switch. Before performing initialization, make sure to adjust the inflation pressure of each tire to the specified level. (→P. 475)
Change wheel (change the tire pressure warning system sensor ID code set) (vehicles without a tire inflation pressure display function)		Select to change the tire pressure warning system sensor ID code set. To enable this function, a second set of tire pressure warning system sensor ID codes must be registered by a Toyota dealer. For information regarding changing the registered ID code set, contact your Toyota dealer. (→P. 477)
Change wheel (register tire pressure warning system sensor ID codes) (vehicles with a tire inflation pressure display function)		Select to register the ID codes of the tire pressure sensors to the tire pressure warning system. To register the ID codes, press and hold the 🆗 switch. (→P. 477)
Rear seat reminder (→P. 154)	On	Select to enable/disable the rear seat reminder.
	Off	
Scheduled maintenance display (if equipped)		
Maintenance data reset		Select to reset the message indicating maintenance is required, after the required maintenance is performed. (→P. 448)
